

A small soap company that competes on what it *leaves out*.

Truly scent-free, natural, coconut-forward bars, made by hand and cured six weeks. **Four ingredients: olive oil, coconut oil, water, lye.** No fragrance, no dye, no claims we can't keep. First sale target: **November, in time for the holiday markets.**

WHY THIS WINS

- People search for it.** "Unscented soap" and "fragrance free" are typed into Etsy every day by people with allergies and eczema.
- Markets notice it.** Among 100 vendors, ours is the one stall a scent-sensitive shopper can buy from.
- Stores need it.** Health stores and wine-country B&Bs want unscented, BC-made bars for sensitive guests.

The road to first sale · *three months, roughly*

Test batch	Legal shell	Production	Channels	First sales	Scale
Supplies arrive, you make batch n° 001. It cures while everything else happens.	Name registered, partnership filed, PST, city licence, insurance.	~100 bars poured by mid-October so they cure in time for December.	Etsy shop, our own website (built already), Square for payments.	Holiday markets + Etsy. Health Canada notified within 10 days of first sale.	Farmers' market season stall, Nature's Fare pitch, B&B guest bars.

You make the soap and own the product.

- **Final say on the name.** Front-runner: The Quiet Bar (thequietbar.ca is free). Seven more candidates are checked and waiting.
- **Learn the craft.** A complete guide and a verified first recipe are ready for you, safety first, lye respected.
- **Make batch n° 001** and keep the batch log. Then the recipe line is yours to grow.
- **Set the standard.** If a bar isn't right, it doesn't leave the house.

Kevin runs the rails underneath it.

- **Paperwork:** BC partnership, PST, Kelowna home-business licence, insurance, Health Canada notifications.
- **Storefronts:** the website is already built, Etsy setup, Square payments for markets and online.
- **Applications:** Craft Culture holiday market, Winter Street Market, the 2027 farmers' market season.
- **The numbers:** budget, margins, and what's selling where.

Money · *one shared pool, two rounds*

ROUND ONE · NOW		ROUND TWO · ~6 WEEKS IN		WHAT COMES BACK
Test batch, tools + ingredients	\$180-230	Ingredients + labels, ~100 bars	\$380-480	~70% margin each \$9 bar costs about \$2.50 to make Selling ~150-190 bars recoups everything. One good holiday market weekend plus steady Etsy sales gets there. After that, refill batches cost ~\$160 and are nearly all margin.
Registration + licence + domain	\$190-260	Insurance + reader + booth fees	\$575-770	
Prove it works	~\$400-500	Market-ready	~\$950-1,250	

THIS WEEK	1 · Order the kit One box from Voyageur in Surrey plus a scale and safety gear.	2 · Read, then pour The guide takes an evening. Batch n° 001 takes an afternoon.	3 · Pick the name The moment you decide, Kevin registers everything the same day.
